RE: Submittal to address Deficiencies in Division Order 99B
 Horizon Mine, ACT/007/020-DO99B

Per a request by David Miller of Lodestar Energy, please find attached three copies of Chapter 3 and Plate 3-1. The copies of the amendment are being delivered to the Price Field Office.

Since there was confusion concerning revisions to the Reclamation Plan, the approved reclamation plan submitted prior to 1999 has been put into this submittal, except for Section 3.5.3.2 which has been revised.

There is no current need by Horizon to use Sunnyside Cogeneration for the storage of "underground development waste". However, according to their interpretation of the UDOGM permit, Cogen can potentially receive and mine underground development waste for combustible material.

Per the Technical Analysis and Findings, ACT/007/020-99B, September 30, 1999, Page 4, "Material sent to Cogen for electrical production is considered a product and does not need Division approval", therefore there was no need to include information in the permit pertaining to material (product) shipment to Cogen.

Should you have any questions concerning this submittal, please contact me at (435) 472-0884.

Sincerely yours,

Vicky S. Miller
 Permitting Coordinator
 EarthFax Engineering, Inc.

Application for Permit Change

Detailed Schedule of Changes to the Permit

Title of Change: Response to Deficiencies in Response to Division Order 99B.

Permit Number: ACT/007/020

Mine: Horizon

Permittee: Lodestar Energy, Inc.

Provide a detailed listing of all changes to the mining and reclamation plan which will be required as a result of this proposed permit change. Individually list all maps and drawings which are to be added, replaced, or removed from the plan. Include changes of the table of contents, section of the plan, pages, or other information as needed to specifically locate, identify and revise the exiting mining and reclamation plan. **Include page, section and drawing numbers as part of the description.**
